## Objectives:

Upon completion of this presentation the attendee will be able to:

- list the indications for mechanical ventilation (MV).
- describe common modes of MV, frequently used ventilator settings and waveform monitoring of airway pressures during MV.
- review of ABG, most common ventilator changes from a blood gas.
- describe the process of ventilator weaning and eventual liberation of patients from MV.
- distinguish alternative modes of MV and the basic principles of non-invasive ventilation.
- discuss special considerations for COVID-19.

## About the Presenter

Charlene (Char) Allee RRT is a Respiratory Therapist (RT) and RT Educator for Centura Health. She has over 23 years of experience in RT.

## Mobile participation

If you are joining a Zoom meeting for the first time, you will be prompted to install the Zoom app. Click the link and install the Zoom app. Please enter your full name in the screen name and a full email address <http://centura.zoom.us/j/646397701> If you need to enter the meeting id, enter 646-397-701 without the dashes.

Centura Health is not offering nursing credit for this session. Nursing credit should be determined and issued (if applicable) by the participant's employer. Preapproval is recommended. Contact your professional development director for more information.
